WHY CHOOSE RIOBEL PRO

Riobel Pro valves have built-in diverters, so you don't have to plumb in a separate shut-off or diverter valve

Riobel Pro thermostatic/pressure balance valves stabilize water pressure for steady temperature performance even if pressure drops by 50%

Rough and installation box for concrete floors are ideal for installing freestanding tub fillers

Shower valves available in three (3) connections: NPT or sweat, PEX and PEX expansion

Valve roughs made in Canada

Easy and fast to install

Contemporary, functional and attractive collections

DESIGNED FOR PLUMBERS, LOVED BY DESIGNERS!
